

About our E-Cell:

E-Cell is the official Entrepreneurship Cell of Thakur Shyamnarayan Engineering College, focused on nurturing innovation, creativity, and leadership among students. We aim to create a thriving ecosystem that empowers young minds to explore startup ideas and build impactful ventures.

Our logo, featuring a rising phoenix and three stars, reflects growth, vision, and excellence.

Guided by our motto “Innovate. Inspire. Impact.”, we plan to organize workshops, hackathons, speaker sessions, and mentorship programs to spark entrepreneurial thinking on campus.

Vision and mission:**Vision:**

To build a thriving entrepreneurial ecosystem within the campus that nurtures independent thinking, creative problem-solving, and real-world impact.

We envision empowering student innovators to lead with purpose, transform ideas into ventures, and make meaningful contributions to society.

Mission:

- To promote innovation and critical thinking through structured mentorship, workshops, and startup events.
- To provide students with the tools, resources, and exposure needed to build scalable, solution-oriented ventures.
- To instill values of excellence, achievement, and leadership, reflected in every initiative we undertake.
- To foster collaborations with industry, alumni, and the startup ecosystem for real-world learning and impact.

What is NEC?

The National Entrepreneurship Challenge (NEC) is a flagship initiative by E-Cell IIT Bombay, designed to foster entrepreneurship across college campuses in India. It aims to build a nationwide network of innovation-driven E-Cells by engaging students in a series of entrepreneurial tasks, workshops, and challenges that test creativity, leadership, and execution skills.

We are excited to announce that our E-Cell is an official participant in NEC 2025 by IIT Bombay. Through this national platform, we aim to amplify our efforts, compete with the best, and grow as a student-led entrepreneurial force.
